

AminoQuelant®-Zn

AminoQuelant®-Zn is a product based on L- α -amino acids obtained through the exclusive **Enzyneer®** technology and Zinc (Zn). The joint application of amino acids and Zinc in a single product contributes to a better assimilation of Zinc and to a much faster and more effective distribution to the points of consumption.

Benefits

- Provides Zinc with high bioavailability
- Prevents and corrects Zinc deficiencies
- Helps to recover more quickly the plant before a stress caused by deficiency of Zinc

Data Sheet

Crops

AminoQuelant®-Zn can be applied to all types of crops by foliar spray or localized irrigation. It is especially indicated for crops with high needs in Zinc, such as: horticultural, fruit, citrus, etc.

Doses

Foliar application: 2.5-5 mL/L or 2.5-5 L/ha

Root application: 5-10 L/ha

Moment of application

Perform several applications every 7-15 days when the first symptoms of Zinc deficiencies are anticipated or present.

Composition

L- α -amino acids	5% (p/p)
Zinc	7% (p/p)
Total N	2% (p/p)
Organic N	1% (p/p)
Organic Matter	12% (p/p)

(*) The formula contains each and every one of the biologically active free amino acids: ASP, SER, GLU, GLY, HIS, ARG, THR, ALA, PRO, CIS, TYR, VAL, MET, LYS, ILE, LEU, PHE, TRP.
