Terra-Sorb® complex

The most powerful amino acid

What is it? And what is it for?

Terra-Sorb® complex is a formula based on L- α -amino acids, obtained through the exclusive Enzyneer® technology, for foliar application. It is a product with a very high concentration of free amino acids and a complete and balanced proportion of micronutrients. Its action is fast and very powerful and has a high compatibility in mixtures.

Benefits:

- Increases photosynthetic activity and chlorophyll content.
- Rapid recovery from critical situations.
- Improves the quality of the fruit set due to its high Boron content (B).
- Maintains the balance between biostimulation and the contribution of nutrients at the most critical times for cultivation.

Data sheet:

Crops:

Terra-Sorb® complex can be applied to all types of crops: leaf horticulture, fruit horticulture, strawberry, stone fruit, pip fruit, citrus, olive, vine or grape, tropical, industrial, extensive crops, etc.

Dose:

- Apply foliar 2-3 mL / L or 2-3 L / ha.

Moment of application:

Whenever there is a situation of stress and at critical moments of the crop such as sprouting, fruit set, fruit development, etc.

Composition:

L- α -amino acids (*) 20% (w / w)

Nitrogen (N) total 5.5% (w / w)

Nitrogen (N) organic 5% (w / w)

Magnesium (MgO) 0.8% (w / w)

Boron (B) 1.5% (w / w)

Iron (Fe) 1.0% (w / w)

Manganese (Mn) 0.1% (w / w)

Molybdenum (Mo) 0.001% (w / w)

Zinc (Zn) 0.1% (w / w)

Organic matter 25% (w / w)

(*) The formula contains each and every one of the biologically active free amino acids: ASP, SER, GLU, GLY, HIS, ARG, THR, ALA, PRO, CIS, TYR, VAL, MET, LYS, ILE, LEU, PHE, TRP
