

BIOIBERICA

Terra-Sorb[®] organic

What is it? What is it for?

Terra-Sorb[®] organic is a formulation for foliar and fertigation application based on L- α -amino acids obtained by Enzyneer[®], the exclusive extractive technology of Bioiberica.

It is a product with a very high concentration of free amino acids and a complete and balanced proportion of micronutrients. Its action is fast and very powerful and has a high compatibility in mixtures.

Benefits

- Increases photosynthetic activity and chlorophyll content.
- Fast recovery from critical situations.
- Maintains the balance between biostimulation and the contribution of nutrients at the most critical moments for the crop.
- It has certification by ECOCERT as an **input suitable for organic farming** in the European Union according to EC regulations 834/2007 and 889/2008.

Data sheet

Crops

Terra-Sorb[®] organic can be applied to all types of crops: horticulture, horticulture, strawberry, stone fruit, pip fruit, citrus, olive, vine or grape, tropical, industrial, extensive crops, etc.

Doses

- Apply foliar 2-3 mL / L or 2-3 L / ha.
- It can also be applied via soil fertigation at a dose of 8-12 L / ha.

Moment of application

Whenever there is a situation of stress and at critical moments of the crop such as sprouting, fruit set, fruit development, etc.

Composition

Free amino acids (*)	20% (w/w)
Total nitrogen (N)	5,5% (w/w)
Nitrogen (N) organic	5% (w/w)
Iron (Faith)	1,0% (w/w)
Manganese (Mn)	0,1% (w/w)
Molybdenum (Mo)	0,001% (w/w)
Zinc (Zn)	0,1% (w/w)
Organic matter	25% (w/w)

(*) The formulation contains each and every one of the biologically active free amino acids: ASP, SER, GLU, GLY, HIS, ARG, THR, ALA, PRO, CIS, TYR, VAL, MET, LYS, ILE, LEU, PHE, TRP.
