**Terramin<sup>®</sup>**  
*pro*

## Soil health enhancer

**Terramin<sup>®</sup> Pro** is a formulation based on L- $\alpha$ -amino acids obtained through the exclusive **Enzyneer<sup>®</sup>** technology (process of obtaining amino acids recognized in Organic Farming).

The product provides organic nitrogen of rapid assimilation entirely from the amino acids as no nitrogen is added to its formulation.

The high content of organic matter of the product supposes an added advantage in the ROOT applications, when improving the natural conditions of the rhizosphere. **Terramin<sup>®</sup> Pro** protects and improves the biological properties of the soil, providing the fertilization that the soil microbiota needs.

### Benefits:

- Certified input in Organic Farming.
- Natural source of organic nitrogen.
- It provides the fertilization that the soil microbiota needs for the optimal development of the crop.

### Data Sheet

**Crops:** **Terramin<sup>®</sup> Pro** can be applied to all types of crops: horticultural, fruit, citrus, tropical, olive, ornamental, potato, vine, beet, tobacco, cotton, corn, cereals, alfalfa, forage, etc.

### Doses:

- Root application: Apply through irrigation water between 10 to 15 L / Ha every 7-15 days during critical periods.

*It can also be used in foliar spray at 3-6 mL / L of water (3-6 L / Ha) per application.*

### Moment of application:

Its use is recommended in transplant, sprouting, flowering and fruit development. It is especially indicated to maintain a good fertilization and health of the soil throughout the crop cycle.

### Composition

Total N	6,0% (p/p)
Organic N	6,0% (p/p)
L- $\alpha$ -amino acids (*)	18,0% (p/p)
Organic Matter	40,0% (p/p)
pH	7,0

(\*) The formula contains each and every one of the biologically active free amino acids: ASP, SER, GLU, GLY, HIS, ARG, THR, ALA, PRO, CIS, TYR, VAL, MET, LYS, ILE, LEU, PHE, TRP
